THINGS TO KNOW ABOUT EMBROIDERED EMBLEMS
 Emblems are made on delicate, computer program machines, either on an automatic loom or synchronized multi-needle heads. The more you order, the less they cost because a certain number of emblems are produced at one time. The 4" wide emblem is generally used for Law Enforcement and Fire Service Agencies! Here's the secret! No matter which design you choose, the width is the only dimension used, regardless of the way the lettering or the design is positioned. Measurement is based on widest dimension.

Just send us your rough sketch, we'll take care of the rest!
IMPORTANT: Don't crowd your lettering. Allow plenty of room for greater legibility.
